Features: 1-2002Z features a ziplink splice to solve problems in applications where lace retention or installing an endless belt is a problem. The NBR compound is oil, heat and grease resistant. White OHGR Ziplink is a problem solving belt for light and medium industrial applications. The Ziplink splice is smooth and non-metallic and combines the convenience of a laced belt with the splice tension raiting of an endless belt. This belt is used in any food application requiring oil, heat and grease resistance.
