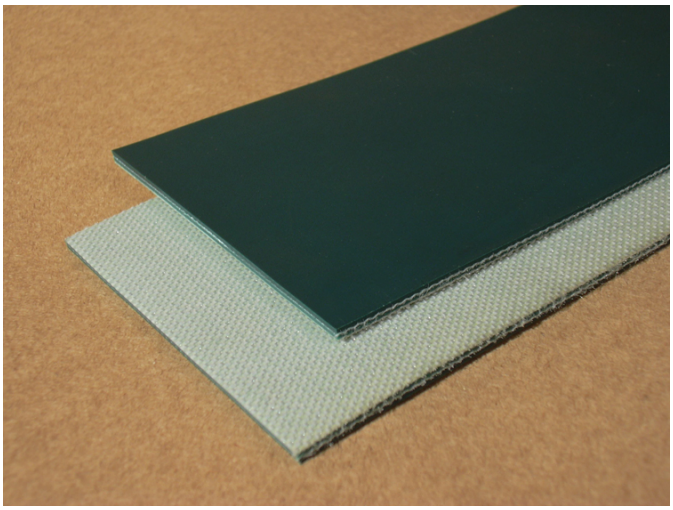
Working Temp: 14 to 158 °F
Max. Stocked Width: 118.11"
Attributes: Anti-Static, Cross Rigid, Sliderbed Suitable
Hardness: 80a

Features

4-1012 is a general-purpose belt designed to perform on both slider beds and roller conveyors. It provides stable tracking, reliable strength, and durable operating characteristics.

It is available in a flame-retardant formulation conforming to ISO 340, offering additional safety for environments where ignition control is required.


This belt is used for infeed, discharge, line, and inspection applications throughout distribution centers, packaging lines, furniture manufacturing, plastics processing, and wood-industry operations.
